## SUMMARY

Computer Science Engineering student with expertise in Full Stack Development and Machine Learning. Experienced in building scalable web applications using the MERN stack and developing AI-based solutions using TensorFlow and FastAPI. Strong problem-solving skills with a focus on performance optimization and real-world impact.

## SKILLS

|                                |                                                        |
|--------------------------------|--------------------------------------------------------|
| <b>Programming Languages :</b> | C, C++, JavaScript, SQL, Python                        |
| <b>Web Development :</b>       | React.js, Node.js, Express.js, Tailwind CSS, HTML, CSS |
| <b>Machine Learning :</b>      | Deep Learning, CNN, Supervised & Unsupervised Learning |
| <b>ML Libraries :</b>          | TensorFlow, Scikit-learn, Pandas, NumPy, Matplotlib    |
| <b>Databases :</b>             | MongoDB, MySQL                                         |
| <b>Tools Platforms :</b>       | GitHub, VS Code, Postman, FastAPI, Uvicorn, Git        |

## INTERNSHIP / TRAINING

|                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------|
| <b>MERN Stack Developer Intern</b><br><i>Seldom India Technologies</i> <ul style="list-style-type: none"><li>Designed and deployed scalable MERN stack modules, improving application performance, efficiency and user experience</li><li>Integrated REST APIs for efficient frontend-backend communication and real-time data flow</li><li>Implemented secure payment gateway integration using Razorpay API, enabling reliable transactions</li></ul> | Jun 2025 - Jul 2025<br><i>On-site • Jaipur</i> |
